What people are saying...

"I started the We Who Worship book yesterday. It is the best book on instruction of true worship I have ever seen. It compels me to have a pure heart and true motives. I am on chapter 5 and I am trying not to read fast. It is the easiest book to read, I really, really like it... I like the questions which if you didn't know the answer it could be found within the chapter."

"Listened to the 'We Who Worship' CD for the first time and fell in love with it! Such a strong anointing! Very easy to get lost in worshipping the Father with this CD!"
